A dynamic, detail-oriented and self-driven individual seeking a challenging position in the field of Cyber Security. Eager to contribute academic knowledge and passion for the industry while leveraging excellent communication, organizational, problem solving and analytical skills and having a broad understanding of cybersecurity concepts and the frameworks. Currently working to further develop my skills through various learning platforms.

TECHNICAL SKILLS

- Network security
- Routing and switching
- Endpoint security
- Incident response
- Risk management
- SIEM (ELK)
- Log analysis
- Nmap
- Snort
- Wireshark

EDUCATION

Ontario College Graduate Certificate in Cyber Security
Loyalist College in Toronto   **January 2023 – Present**

BSc (Hons) Computer Networking and IT Security
Islington College   **August 2018 – December 2021**

WORK EXPERIENCE

IT INTERN   **January 2022 – March 2022**
Hospital and rehabilitation center for disabled children (HRDC)

- Monitored the networks and firewalls for the organization and worked on the security updates.
- Collaborated on various projects with internal teams, security advisors and security specialists.
- Monitored and analyzed network traffic with the network security team to look for unusual activities, possible intrusion and security incidents.
- Supported with the investigation and handling of security incidents including coordinating with pertinent parties and analyzing log files.

CYBER SECURITY INTERN   **September 2020 – December 2020**
Vairav Technology

- In the Security Operation Center, performed practical tracking and analysis of the network activity.
- Actively participated in the identification and analysis of potential security vulnerabilities within the organization's IT infrastructure.
- Worked with the team of cybersecurity analysts to implement and monitor security measures including firewall, antivirus software and IDS systems.
- Participated in ongoing security awareness training and helped create educational resources to encourage a culture of cybersecurity awareness.
- Stayed updated on the latest cybersecurity trends and technologies through different platforms.

ACHIEVEMENTS/ CERTIFICATIONS

- CompTIA Security+ (Expected 03/2024)
- Cyber Defense | TryHackMe
- SOC level 1 | TryHackMe
- Cybersecurity Essentials | Cisco Networking Academy
- Introduction to Critical Infrastructure Protection | OPSWAT
